

Townhouse in Estepona

Estepona, Costa del Sol

From
€1,180,000

Ref: SP5283937

Beyond Homes is a new residential development of contemporary houses in Estepona, created for buyers seeking space, light, privacy, and a stronger connection to their surroundings. Positioned on elevated terrain close to the coastline, the project combines modern architecture with the natural landscape of the Costa del Sol, offering open views and a sense of distance from the more densely built coastal zones. The development features a limited collection of modern houses designed with clean architectural lines, generous terraces, and carefully planned layouts. Each home is shaped to maximise natural light and create a smooth transition between interior living areas and outdoor spaces. Large windows frame the surrounding landscape while allowing daily life to flow naturally between inside...

Property Description

Location: Estepona, Costa del Sol, Spain

Beyond Homes is a new residential development of contemporary houses in Estepona, created for buyers seeking space, light, privacy, and a stronger connection to their surroundings. Positioned on elevated terrain close to the coastline, the project combines modern architecture with the natural landscape of the Costa del Sol, offering open views and a sense of distance from the more densely built coastal zones.

The development features a limited collection of modern houses designed with clean architectural lines, generous terraces, and carefully planned layouts. Each home is shaped to maximise natural light and create a smooth transition between interior living areas and outdoor spaces. Large windows frame the surrounding landscape while allowing daily life to flow naturally between inside and out.

Beyond Homes is built around the idea of integrated environments. Kitchens, living areas, terraces, and outdoor zones are conceived as one continuous living space rather than separated rooms. Interiors open directly onto terraces and private outdoor areas, supporting a lifestyle where the home extends into the open air, from quiet mornings to evenings spent outdoors.

Terraces form a central part of each home, designed as usable living spaces rather than secondary areas. They provide room for lounge zones, outdoor dining, and relaxation. Selected houses include rooftop terraces that elevate the experience further, creating private viewpoints across the coastline and surrounding hills.

Inside, the houses combine contemporary design with warm materials and refined finishes. Open-plan layouts, carefully balanced proportions, and practical living spaces define interiors that are both visually calm and highly functional. These homes are suited for permanent living, second-home ownership, or long-term investment on the Costa del Sol.

The location places Beyond Homes within easy reach of beaches, golf courses, marinas, and the daily amenities of Estepona, while still offering a setting that feels removed from the busiest parts of the coast.

Beyond Homes has been conceived as a cohesive residential environment where architecture, landscape, and lifestyle come together in a balanced way, reflecting modern Mediterranean living in one of the Costa del Sol's most established coastal areas.
