Property Description

Location: The Golden Mile, Costa del Sol, Spain

Luxury Villa in Marbella's Golden Mile

Listed at €5,995,000, this Lomas de Marbella Club villa offers 5 bedrooms, 7 bathrooms, 696 m² of interior space, 763 m² of terraces, and a 1,010 m² plot in one of the most established areas of Marbella's Golden Mile.

Casa Cazorla presents a contemporary interpretation of Mediterranean living, shaped by natural materials and a layout designed to elevate privacy and calm. The combination of stone, wood and generous glazing sets a warm architectural tone, while clean geometry and open interiors create an uncluttered flow between the main living spaces. The entrance opens into a bright social area where living, dining and kitchen zones share views across the garden and pool, supported by floor-to-ceiling windows that frame the exterior as an extension of the home. This level also includes a guest suite with direct terrace access.

The upper floor balances three bedrooms with soft, garden-facing light and thoughtfully designed proportions. Two guest suites lead onto the terrace, while the main suite features a walk-in wardrobe and a bathroom arranged with a rain shower, freestanding tub and warm finishes. The tone is consistent throughout the home: understated, calm and functional, relying on natural textures to soften the contemporary design.

The lower level focuses on wellbeing and leisure, integrating a spa, hammam, gym, wine room, office and a playroom. An additional en-suite bedroom on this floor connects directly to the garden, creating a quiet corner for guests or extended family members. The exterior layout frames the pool with landscaped gardens, outdoor lounging zones and an equipped dining area, forming a setting suited to both relaxed living and seasonal entertaining.

Casa Cazorla sits within Lomas de Marbella Club, a location long favoured for its access to the Golden Mile, Puente Romano, Marbella Club and the amenities stretching between the town centre and Puerto Banús. The home aligns modern architecture with its surroundings, offering a balanced lifestyle address with convenience, privacy and design at its core.
