PROPERTY DESCRIPTION

Welcome to Paradise. A heavenly hideaway steps from the sea!

A white contemporary beach house, tall palms on the blue sea and sky background... Photos of this property might have you convinced it's located in an ultramodern escape in Hamptons, sunny California or oceanfront Miami. In reality, the house proudly stands on the beach in Mijas Costa, surrounded by high-end classic villas. Abundance of glass, open plan concept, geometric volumes, shapes and lines are iconic for the modern contemporary style. However, this villa stands out from all the other modern homes. Its exceptional design is truly outstanding and innovative, reflecting the highest standards in contemporary architecture.

The ultra-stylish interiors benefit from Avant-garde and futurism style features, green vertical elements and bespoke accent walls. Add some truly indulgent outdoor spaces! It's a masterpiece! "Only the best is good enough" has been the concept behind the project of this home created in 2018 for the most luxurious stress-free life. Set on a large 2.190 m² plot, the south-facing villa of 561 m² is built on one level with 700 m² shaded and sunny terraces, and outdoor areas enjoying delightful water features.
