

Royal Palms Mijas

SEA VIEW & GOLF RESIDENCES
MIJAS COSTA

CONSTRUCTION

FOUNDATIONS

- Shallow (pad footing) foundation types designed following regulations and ground conditions.

STRUCTURE

- The buildings' structure will be composed of a mix of steel columns and reinforced concrete columns, beams and walls, waffle floor slabs on floors and flat reinforced concrete slabs on the terraces.

ROOFS

- Roofs will be transitable with inbuilt drainage slopes and finished with non-slip flooring.

EXTERIOR WALLS

- Exterior walls will use bricks covered with a white render on the majority of the exterior face. On the interior, there will be insulation enclosed using prefabricated plaster panels.

INTERIORS

PARTITION WALLS

- Prefabricated partition walls made from lightweight plaster reinforced with fibre glass.

CLIMATE CONTROL

- Hot water produced using aerothermal heat pump.
- Aerothermal sustainable air conditioning system for living room and bedrooms of each home, consisting of a split unit with an aerothermal heat pump and interior distribution ducts.
- Electric underfloor heating installed in the master bathroom. In the secondary bathrooms the installation will be an optional extra.

PAINTWORK

- White paint on ceilings and walls where not tiled.

INTERIOR FLOORING

- Large format porcelain tiles by KERABEN or similar with skirting boards to match.

EXTERIOR FLOORING

- As standard in private areas, flooring to match the interior but with an added non-slip treatment.

BATHROOM WALL TILING

- Large format bathroom tiles by KERABEN or similar with the option of large tiles or mosaics available in the shower and bath areas.

LIGHTING

- LED lighting throughout.
- Recess lighting in the ceiling of the living room.
- Recess lighting along the window of the master bedroom.
- Exterior lighting on terraces.

CARPENTRY

- Entrance door with a white interior and wood effect exterior hung on anti-lever hinges with peep hole and large stainless steel pull handle.
- Interior doors in white with stainless steel fittings.
- Wardrobe doors in white with integrated handles. Lined interiors with shelving, drawers and hanging rail. LED lighting fitted in the master bedroom wardrobe.
- Exterior windows and doors fabricated using aluminium lacquered in RAL 9003. Aluminium carpentry will have a thermal break and microventilation in line with the Spanish Building Code. Double glazing using CLIMALIT glass or similar.
- Motorised monoblock aluminium shutters fitted on bedroom windows.
- Glass balustrades mounted on aluminium profiles and anchored to the concrete structure of the building. Laminated glass in a 10+10 mm format.

SPECIFICATIONS

SPECIFICATIONS

ELECTRICAL

- TV and telecommunications outlets.
- USB plug in each of the bedrooms.
- Plugs and switches from the series D-Life by SCHNEIDER or similar.
- Video intercom by FERMAX or similar.

BATHROOMS

- VILLEROY BOCH or similar bath.
- DURAVIT or similar suspended toilet with soft-close seat and concealed cistern by LAUFEN or similar.
- Tempered glass shower and bath screens.
