

## So Central and yet so Private

It is located on the New Golden Mile – the coastal area that lies between Estepona and San Pedro Alcántara. A convenient and desirable location, close to everything you could wish for, from sports and beaches to practical amenities such as schools, supermarkets, shopping, dining and entertainment.

You are located just a few minutes' drive of six golf courses, as well as a great choice of other sports, leisure and practical amenities, not to mention beaches, the bustling town of San Pedro, beachside charm of Estepona, the glamour of Puerto Banús and Marbella town and the undeniable rustic appeal of Benahavis.

Lying close to Cancelada, your local village, with its shops, cafés and eateries, as well as conveniences such as a post office and banks – and beyond are the valleys and hills of open, unspoiled countryside, perfect for hiking, mountain biking and cross-country buggy rides.

There is a world of experiences at your fingertips, and it is the ideal spot from which to enjoy them – a centrally located oasis of personal greenery where you can enjoy the ultimate Marbella lifestyle to the full.

## Apartments & Penthouses

The aesthetically appealing low-rise apartment buildings that make up this development offer a variety of sizes, orientations and configurations that ensure every home has a unique and personal feel.

Within these main property types there is a choice of sizes and layouts that further increases the range of options and the ability to cater to different tastes and needs – there are also standard and bespoke updates that enable you to personalise your home.

## Personalised detailing

This development offers a high standard of modern kitchens, bathrooms, cabinetry and technical installations, along with your choice from a range of textures, materials and colour tones. There is also a list of optional features such as modern gas fireplaces, kitchen upgrades and penthouse jacuzzis.

Full utilisation of the latest technical infrastructure and amenities to maximise performance and energy-efficiency has been at the forefront in the development, which not only results in more environmentally friendly homes, but also a top energy certification and low utility and maintenance costs.

A high standard of build quality combines with striking contemporary architectural styling and fresh open-plan interiors which extend and subsequently merge in to the spacious terraces with views of the gardens, mountains and the nearby sea.

Parking

Secure gated entrances offer peace of mind for residents, with private underground parking and spacious storage rooms for each property. The level of finishing in all communal areas is modern and attractive throughout.

The lush greenery of the extensive gardens are a characteristic feature of this development, a private oasis within a few hundred metres of the sea, but at the heart of the community is a large swimming pool with expansive private sunbathing deck.

Other features found in this high-end residential complex include a professional fitted gymnasium with changing room facilities and natural light and views to inspire your workout. The community even features its own co-working and meeting area with a café bar and terraced space.

Privacy and luxury amenities on the New Golden Mile

## B energy rating (emissions)

The building has a B energy rating in emissions, meaning a reduction in CO<sub>2</sub> emissions and a significant reduction in the building's energy demand.

This rating is achieved by adopting an improved building envelope (thermal insulation on the façades, improvements on the roof, and efficient carpentry and glass) and high-efficiency thermal installations.

This rating equates to an anticipated 70% energy savings and hence to significant economic savings as compared to a house with a F energy rating.

\* Estimated energy saving calculation of a typical 95 m<sup>2</sup> dwelling with an A rating compared to an F rating reference home in accordance with the «Energy Efficiency Rating of Buildings» published by the Ministry of Industry, Energy and Tourism in November 2015, and other regulations that complement and/or could replace it.

\*\* Guaranteed minimum saving in domestic hot water consumption (DHW) in the building as a whole, taking into account its location and the minimum occupancy values according to the current applicable standard.
